*Mycopathologia* **130**: 189–191, 1995.

# CONTENTS VOLUME 130

**No. 1**

Obituary: C.C. Campbell, 1914–1993 1–2

HUMAN AND ANIMAL MYCOLOGY

In vitro susceptibilities of clinical yeast isolates to three antifungal agents determined by the microdilution method - M.A. Pfaller & A.L. Barry 3–9

Phylogenetic relationships of some *Microsporum* and *Arthroderma* species inferred from mitochondrial DNA analysis - M. Kawasaki, M. Aoki & H. Ishizaki 11–21

PLANT MYCOLOGY AND CROP PROTECTION

Nephrotoxigenic *Penicillium* species occurring on farm-stored cereal grains in western Canada - J.T. Mills, K.A. Seifert, J.C. Frisvad & D. Abramson 23–28

Mycoflora of Argentinian corn harvested in the main production area in 1990 - H.H.L. González, S.L. Resnik, R.T. Boca & W.F.O. Marasas 29–36

MYCOTOXICOSES AND MYCOTOXINS

First reported isolation from New Zealand pasture of *Pithomyces chartarum* unable to produce sporidesmin - R.G. Collin & N.R. Towers 37–40

***

Book review - R. Treu 41

IMI Descriptions of Fungi and Bacteria, Set 124, Nos. 1231–1240 - P.W. Crous *et al.* 43–64

**No. 2**

Obituary: Leo Pine 1922–1994 65–66

HUMAN AND ANIMAL MYCOLOGY

Extracellular proteases of *Hendersonula toruloidea, Scytalidium hyalinum* and *Scytalidium japonicum* - C.A. Oyeka & H.C. Gugnani 67–70

Fungal diseases of fish in Nanak Sagar, Naini Tal, India - R.D. Khulbe, C. Joshi & G.S. Bisht 71–74

Polyserositis in a patient with acute paracoccidioidomycosis and hepatosplenic schistosomiasis - M.A. Shikanai-Yasuda, G. Benard, M.I.S. Duarte, O.H.M. Leite, M. Eira & M.J.S. Mendes-Giannini 75–78

Fungi inhabiting household environments in Riyadh, Saudi Arabia - H.A. Bokhary & S. Parvez 79–87

Cutaneous zygomycosis caused by *Absidia corymbifera* in a leukemic patient - J.O. Lopes, D.V. Pereira, L.A. Streher, A.A. Fenalte, S.H. Alves & J.P. Benevenga 89–92

Simple new test for rapid differentiation of *Prototheca stagnora* from *P. wickerhamii* and *P. zopfii* - M.J. Casal & J.G. Aroca 93–94

PLANT MYCOLOGY AND CROP PROTECTION

Effect of proteolytic and glycolytic enzymes on a factor in *Sorghum bicolor* that induces mycelial growth in the smut fungus, *Sporisorium reilianum* - S. Bhaskaran & R.H. Smith 95–101

Greenhouse screening of *Trichoderma* isolates for control of *Curvularia* leaf spot of yam - S.J. Michereff, N.S.S. da Silveira, A. Reis & R. de L.R. Mariano 103–108

Studies on fungi associated with tomato fruits and effectiveness of some commercial fungicides against three pathogens - A.Y. Abdel-Mallek, S.K. Hemida & M.M.K. Bagy 109–116

MYCOTOXICOSES AND MYCOTOXINS

Production of fumonisins by *Fusarium* species of Taiwan - T.-C. Tseng, K.-L. Lee, T.-S. Deng, C.-Y. Liu & J.-W. Huang 117–121

***

Book reviews - J.W. Bennett / I.K. Ross 123–125

**No. 3**

Letter to the Editor: The changing spectrum of medical mycology education *or A medical mycologist who can't swim will sink in a hurry* - G.S. Bulmer 127–129

HUMAN AND ANIMAL MYCOLOGY

Effect of macrophage blockade on the resistance of inbred mice to *Paracoccidioides brasiliensis* infection - S.S. Kashino, R. dos Anjos Fazioli, M. Moscardi-Bacchi, M. Franco, L.M. Singer-Vermes, E. Burger & V.L. Garcia Galich 131–140

Efficacy of 6-amino-2-*n*-pentylthiobenzothiazole on *Trichophyton* in vitro and in vivo - H. Bujdáková, M. Múčkova, M. Klobušický & E. Sidóovú 141–145

Cryptococcal prostatitis in a patient with Behcet's disease treated with fluconazole - H. Fuse, M. Ohkawa, K. Yamaguchi, A. Hirata & F. Matsubara 147–150

In vivo development of the entomogeneous hyphomycete *Paecilomyces farinosus* in host *Spodoptera exigua* (beet armyworm) larvae - J.C. Penland, S.-Y. Hung & D. Boucias 151–158

## PLANT MYCOLOGY AND CROP PROTECTION

A report on the predominant occurrence of a dermatophyte species in cultivated soil from Kuwait - A.A. Al-Musallam, Sh.S. Al-Zarban, N.A. Al-Sanè & T.M. Ahmed 159–161

## MYCOTOXICOSES AND MYCOTOXINS

Fumonisin $B_1$ alters sphingolipid metabolism and immune function in BALB/c mice: Immunological responses to fumonisin $B_1$ - E.A. Martinova & A.H. Merrill Jr. 163–170

*Alternaria* mycoxins in black rot lesion of tomato fruit: Conditions and regulation of their production - H.A.H. Hasan 171–177

Production of neosolaniol by *Fusarium tumidum* - C. Altomare, A. Ritieni, G. Perrone, V. Fogliano, L. Mannina & A. Logrieco 179–184

***

Book reviews - E.E. Butler / J.W. Bennett 185–187

Volume Contents 189–191
